The notice was published in the Federal Register on October 5, 1995 (60 FR 52213).

Fina Oil and Chemical Company Exploration and Production Group West Texas Division Operating at Various Locations in Texas; Amended Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor issued a Certification of Eligibility to Apply for Worker Adjustment Assistance on August 25, 1995, applicable to all workers of the West Texas Division of Fina Oil and Chemical Company operating at locations in Texas and Louisiana. The notice was published in the Federal Register September 19, 1995 (60 FR 48526).

At the request of the company, the Department is amending the certification to include workers of American Petrofina Pipeline, which is a wholly-owned subsidiary of the subject firm. The workers, located at various sites in Texas, are engaged in employment related to the production of crude oil and natural gas.

The intent of the Department's certification is to include all workers of Fina who were adversely affected by imports. The Department's review of the certification shows that when the certification was issued, Louisiana should have been identified as a

separate location. Therefore, the certification is also amended to separately identify the Fina Oil operations in Louisiana as TA-W-31,246A.

All workers of Fina Oil and Chemical Company with locations in Texas (TA-W-31,246) and Louisiana (TA-W-31,246A), and American Petrofina Pipeline operating at various locations in Texas (TA-W-31,246B) who became totally or partially separated from employment on or after October 8, 1994 are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974."
